COMPANY PROFILE

About Us

Founded in 2001, Fussen has been consistently dedicated to the research, development, and innovation of high-pressure water jet technology, with more than 20 years of technical expertise in high-pressure plunger pumps.

Through advanced manufacturing processes and strict quality control, Fussen delivers pumps that are high quality, durable, and reliable. Our equipment is widely applied in ship cleaning, industrial paint and rust removal, petrochemicals, and building maintenance, and has gained broad recognition in both domestic and international markets.

Professional

International

Professional

Professional High-Pressure Cleaning Technology

Fussen develops advanced high-pressure pump technology that ensures efficiency, durability, and stability across diverse industrial applications.

The high-pressure pump, as the core component of a high-pressure cleaner, directly determines the overall efficiency and stability of the system. With deep insights into industry requirements, Fussen has developed a comprehensive range of professional cleaning solutions designed to meet diverse needs across different pressure levels, flow rates, and working environments.

Fussen's high-pressure plunger pumps are engineered with strict material selection, high-precision machining, and advanced sealing technology to ensure reliability and performance.

Fussen pumps are equipped with ceramic and alloy steel plungers to ensure reliable performance and durability. The ceramic plungers offer excellent wear and corrosion resistance with a smooth, low-friction surface that extends seal life, while the alloy steel plungers provide exceptional strength and impact resistance for high-pressure applications. Together with high-quality water and oil seals, the system maintains stable operation and long service life. For particularly demanding environments, Fussen also provides customized corrosion-resistant and high-temperature-resistant seal solutions. As a result, the pumps deliver reliable stability, superior efficiency, and extended durability under diverse operating conditions.

International

International Quality Standards and Worldwide Reach

Fussen is committed to delivering products that meet the highest international standards and are shipped to customers worldwide.

The company operates in full compliance with the ISO9001 quality management system, ensuring excellence throughout design, production, testing, and service. All products are CE certified and comply with international safety requirements. With outstanding quality and consistent reliability, Fussen's pumps are widely used across Europe, the Middle East, Southeast Asia, and South America. Through long-term partnerships and a proven record of performance, the company has earned the trust of customers around the globe.

Brand-Oriented

Creating Value with Water

Fussen's brand philosophy is built on the belief that water is not only a resource but also a force for creating value.

The company is committed to delivering high-quality pumps while advancing intelligent, efficient, and eco-friendly cleaning technology. Through continuous investment in research, development, and product optimization, Fussen leads the high-pressure water jet industry forward. Looking to the future, the company will continue to innovate and provide global customers with more professional, reliable, and sustainable cleaning solutions.

APPLICATIONS

FAE SERIES

Electric High Pressure Washer

Key Components

■ Intelligent Electric Control Box	■ Carbon Steel Frame
■ Industrial-Grade Motor	■ Solid Tires
■ High-Pressure Plunger Pump	■ Swivel Wheels
■ Pressure Regulating Valve	■ High-Pressure Gun
■ High-Precision Filter	■ Fan-Shaped Nozzle
■ Stainless Steel Pressure Gauge	■ High-Pressure Hose

Features

Easy to Move

Compact design, stylish, space-saving.

Premium Plunger Pump

Ceramic plungers and durable seals ensure long-term stable performance.

Optional Accessories

■ Rotating Nozzle

Brass Pump

Nickel Plated Brass Pump

Stainless Steel Pump

FME SERIES

Electric High Pressure Washer

Key Components

■ Intelligent Electric Control Box (Soft Start)	■ Solid Tires
■ Industrial-Grade Motor	■ Swivel Wheels
■ High-Pressure Plunger Pump	■ High-Pressure Hose
■ Pressure Regulating Valve	■ High-Pressure Gun
■ Safety Valve	■ Fan-Shaped Nozzle
■ High-Precision Filter	■ Stainless Steel Frame
■ Stainless Steel Pressure Gauge	

Features

Easy to Move

Compact design, stylish look, and space-saving.

Industrial-Grade Motor

Four-pole, low-speed motor with low noise, high durability, and long service life.

Intelligent Soft Start

Smooth start/stop system extends machine lifespan.

Premium Plunger Pump

Stainless steel pump with ceramic plungers and durable seals for stable, long-term performance.

Stainless Steel Frame

Strong, durable, and highly corrosion-resistant.
